

The Vision of Prairie View Elementary School

Prairie View must have a clear sense of its goals and standards of achievement for the future to guide our journey. These vision statements identify the school we will become to ensure the best learning for our students:

Climate

Our building is an inviting and welcoming environment where children and adults take pride in their work and their school. Prairie View openly embraces parent, volunteer and student tutor participation in learning. In our school:

- our building is clean, orderly, well-managed and maintained.
- individuals and differences are respected and valued.
- all are safe emotionally, intellectually and physically.
- a positive community spirit is valued.
- the staff is fun, energized, friendly, caring, enthusiastic, participatory and dedicated.
- we are collaborators: ideas are welcome; questions are encouraged; we're open and honest communicators; we work together toward common goals; we share decision-making and leadership.
- we are supported and helped by peers, teachers and administrators.
- we are encouraged and challenged and always supported to grow, learn, take risks and innovate.
- each person is working to do their best and never settle for less.
- each person is excited to learn, and individual strengths are recognized.

Students

In our school, our children are:

- learners who will achieve.
- guided and disciplined with respect and dignity.
- treated fairly with patience and affection.
- proud of their accomplishments.
- known by name.
- individuals with unique learning strengths, needs and talents.
