

The Oregon Middle School is forming a Science Olympiad Team for grades 6th-9th! America's Most Exciting Science Competition

Science Olympiad competitions are like an academic track meet
consisting of a series of 20-25 individual and team events.

Who can participate? Anyone in grades 6-9

When will we practice? Full team practice will be Wednesdays at the middle school from 3:20-4:30 beginning November 18th - April 10th. (RCI students may ride a bus over the middle school for practice). Individual event practices will be determined once the event coach and participants compare schedules. Event practices have been held after school and/or on weekends at homes, school or the library.

What events are offered? Events are in the areas of biology, earth science, chemistry, physics, computers, astronomy, engineering and technology.

Students can typically participate in up to 4 or 5 individual events. (See page 2 and page 3 for short descriptions of the individual events.)

Who will be our coaches?

OMS GT Coordinator Kari Radl- kjr2@oregonsd.net and Kelly Petrie - kap2@oregonsd.net

What is the cost? \$27.00 payable to Community Education/OSD (return registration to school office)

Who will HELP us?? We **REALLY** need adults with expertise in any of the areas of science. If you volunteer to help, your child's registration fee will be waived!

How often would I be needed as a volunteer? Whenever you're available - you can set the practice schedule with the students working the event (s) you have volunteered to support.

When will we compete and where? The state middle school Science Olympiad competition will be held at UW Madison on April 10th, 2010. We will compete in a regional competition as well before state this year.

Community Education Registration- Middle School Science Olympiad

Name _____ Address _____

City _____ Zip _____ Home Phone _____ Daytime Phone _____

Email _____

Cost \$27.00 **Please make checks out to Community Education/OSD**
