

WINTER SAFETY NOTICE

OREGON SCHOOL DISTRICT

Now that we are entering the colder months there is the possibility for snowy and slippery conditions.

We would like to ask for your help in keeping our team safe by **ensuring that driveways and walkways are clear of snow and ice by delivery time.**

We understand that sometimes this is not possible, so in these situations we'll simply leave the delivery by the edge of the driveway for you to retrieve at your convenience.

Please know that while we will work toward keeping our delivery schedule on these days, there may be delays due to road conditions (we will email you if this happens).

We are pleased to continue serving and delivering free meals for students. Thank you for helping to keep our team safe so we can continue to serve you!
