- The Board will not comment after each speaker and will reserve discussion to any items on the agenda. Speakers are welcome to stay for the meeting.
- Next steps following public comment may include: referral to the appropriate administrator for follow-up with the speaker or placement of the matter on a future Board agenda.

#### SUPPORTING DATA

Building the school calendar every year presents unique challenges as we try to balance the needs of our students, families and staff, along with maintaining equity in the number of days per semester, scheduling around holidays, planning for inclement weather, and completing the school year the first or second week in June.

On September 20, 2021, the Policy committee discussed the process for building the calendar. On October 2, 2021, we sent a survey to families and staff regarding their preferences for the calendar. We also met with representatives from the OEA about the calendar, and reviewed the survey results with them. On October 20, 2021, the Policy Committee reviewed the final survey results and had a lengthy discussion about the calendar.

As you can see, 1,028 people responded to the survey. I have highlighted a few results below:

#### Professional Development Days

- More respondents than not preferred the Board schedule professional development days around holidays to provide students with longer breaks.

#### Other Non-Student Days

- The top three preferences for non-students days as indicated by a "strongly prefer" or "prefer" response were: December 23 (82%); the Wednesday before Thanksgiving (78%); and a 2-day fall break in October (67%)
- More respondents preferred that January 2 be a non-student day (63%) than

Good Friday (53%).

Spring Break

More respondents (45%) ranked the week of March 27 as their first preference for the week of spring break that the other two options.

**SUMMARY AND RECOMMENDATION:**

The Policy Committee recommended the attached Calendar 2 after considering the needs of the students and staff along with the feedback from our stakeholders.

We greatly appreciate the time that everyone spent sharing their feedback.

## **324: Establishment of and Changing of Student Record Changes - Working Draft**

- 324.1 – ~~In order to promote the confidentiality of student records, to prevent record keeping errors and to facilitate orderly changes in student names, the District will honor only those name changes which have been authorized by court order upon proper notice of that order being provided to the District. A student’s “legal” name or gender is the name or gender assigned to a student at birth or one that is legally changed by an order of a court. A student’s “official” name or gender is the one used by the District on school records such as the student’s identification, the transportation pass, the yearbook, athletic rosters, event programs, state tests, transcripts and their diploma. A student’s “nickname” is the name that a student prefers to be called, but is not used on official school records.~~
- 324.2 – ~~To enroll a student, the District shall receive written documentation of a student’s legal name, gender and age in the form of a~~ Individual student records shall only be in the legal name of a student, student’s birth certificate or a circuit court order. In the absence of either of these original sources, the District may accept as evidence of the student’s legal name, gender and/or age, a social security card or another verifiable form of governmental identification, a religious, hospital, or physician’s certificate; an official medical record, an adoption record or other alternative record permissible under state or federal law.
- 324.3 - Individual student records shall only be in the student’s official name and gender, which is the student’s legal name and gender, except as provided for in this policy.
- 324.4 The District may change a student’s official name and/or gender on individual student records whereby a parent/guardian with legal custody of a student (who is a minor) provides written permission to the District using the approved process. If the student is 18, the student shall provide written permission, and the District will provide notification to the parent/guardian in consultation with the student.
- 324.5 Unless the District is provided a copy of a court order changing the legal name and/or gender of a student, the District must retain the student’s legal name and gender with the student’s record, but will use the official name and gender on the student’s records.
- 324.3 – ~~The District will not honor informal, non-judicial changes in student names whether upon the request of the student, a custodial parent or a third party. Specifically, a common law declaration of a name change by a student, his/her parent or custodian will not be honored by the District.~~

**AGENDA ITEM: C3 Approval of Metropolitan Unified Fiber Network Consortium Joining Agreement**

BOARD POLICY OR STATUTORY REFERENCE:

**SUPPORTING DATA:**

When the discussion about the possibilities of building a new elementary school in Fitchburg began in 2018, a dream that had been percolating for the better part of the decade became a real possibility. The dream was to find a way to get a more direct high speed fiber connection to the internet. The reason for this idea was that we knew over time that the school district was going to grow and we also knew that our internet traffic per person was going to continue to increase. We knew that our need for a bigger “pipe” to the internet was going to increase significantly and a bigger connection was going to increase costs. By owning our own fiber to a connection to the internet, we would have a virtually unlimited sized “pipe” for essentially the fixed cost of installing and maintaining the fiber.

We included funds within the referendum budget to not only connect Forest Edge to our own fiber network between our schools but also to a connection point with a consortium that has been pursuing our same dream for many years. This agreement allows us to become a voting member of the Metropolitan United Fiber Network Consortium and for 10 years of no cost access to the internet with no “pipe” size restrictions. We currently have a 1 gigabit pipe to the internet that we use daily for our internet traffic. We do occasionally burst up to (and past) that amount of traffic for a small amount of time. We have bought the equipment for the end of the fiber connection to use this new “pipe” at 10 times that amount. This should be sufficient for many years but also gives us the ability to increase it when needed. After the 10 years, we will pay the same amount as the other members to help maintain the infrastructure to operate this network. In return, when we installed the fiber North of town, we included next to our fiber connection a second conduit with 48 strands of fiber for MUFN to use and connect to others. The cost of this additional conduit was essentially just the fiber as the machine that put the conduit in the ground just drilled the second conduit at the same time as it installed our conduit. Our conduit was subsidized at 50% through the Federal Erate program which helped to significantly reduce the cost. The District has on file the Articles of Association and By-Laws if any Board Member would like to review them. They have been reviewed by Legal Counsel.

**SUMMARY AND RECOMMENDATION:**

It is recommended that the Board of Education approve the Joining Agreement with the Metropolitan Unified Fiber Network Consortium as attached to this agenda item.
